MARIETTA, OHIO, TUESDAY, AUGUST 3, 1897.

PRICE ONE CENT

MODIFICATION

Of a Recent Letter of Instruction Sent to Collectors.

Packages of Tobacco Having Promise, Advertisement or Offer of Gift,

Reward or Prize Are Subject to Seizure Under the New Tariff, But No Seizure Will Be Made Until the Department Determines the Question.

WASHINGTON, Aug. 2.—A modification of the recent circular of instructions to collectors of internal revenue has been made and will be sent out Monday. These instructions declared that all packages of smoking tobacco, in cut chewing tobacco, or cigarettes containing articles prohibited by section ten of the new tariff act or having such articles attached or connected therewith, or advertising any promise or offer of gift, reward, or prize, contrary to the provision of the new act, are subject to seizure.

The new order directs that all violations of this section of the act be reported to the commissioner of internal revenue, but no seizures shall be made without specific instructions from him. Some question has arisen as to the power of the department in the premises. The contention is made that congress has no power to fix by law regulations governing the packing of articles subject to internal revenue, unless in some way the power or convenience of the government in the collection is affected. Also that that provision is in restraint of trade and interferes with legitimate business. Until the department has determined the question no seizures will be made under this provision of the law.

In a circular issued Monday it is held at the treasury department that animals which have strayed across the boundary line of the United States, or have been driven across the line for pasturage purposes, must be returned within six months from the date of departure. It is also directed that owners must make an export entry of all such animals, and use similar marks and brands must be filled with the collector at the time of exportation.

A NEW MICROBE.

Very Important Discovery Made by Prof. Rand, of New York City.

STERLING, Conn., Aug. 2.—What may prove to be one of the most interesting and important discoveries of modern times has been made by Prof. A. F. Rand, of New York city, in the form of a microbe hitherto unknown to science.

It is most minute, yet displays an activity that is astonishing, devouring all with which it comes in contact. Especially is this true of the human blood, a drop of which it seizes upon with savagery. They attack the red corpuscles, and it may be that this discovery might lead to important results in the institution of diseases for which these microbes may be directly responsible for, since they seize upon the blood of sickly persons in preference to that from perfectly healthy organizations. The first discovery was made in the east, but the professor removed here in order to study them in a milder climate. They propagate by the millions in a half darkened room, but a ray of light means death. The mouth is the greatest organ discernible in the microbe. Beyond this Prof. Rand has not yet gone with his investigations, which may mean so much to the world of science in general.

A Happy Swede.

NEW YORK, Aug. 2.—A special to the World from Boston says that Carl Cronheila, who has been employed in leaving coal and washing dishes in this country, has been notified of the death of his elder brother, Count Henrik Julius Cronheila, of Sweden, without issue, with a request that he return and take possession of the estates as the only living representative of his family, the Cronheilas, of Flosta. He thus comes into a title, four large properties and an income of \$50,000 a year.

Danville, Ill. Saloons Closed.

DANVILLE, Ill., Aug. 2.—Every one of the 42 saloons in Danville is closed and the thirty citizens must go to Germantown or the road houses for a drink. The Liquor Dealers' association petitioned the city council last Thursday night to lower the license from \$800 to \$600 and threatened to close their places on refusal. The council refused and Monday morning every saloon in the city was found closed. Monday was the day for the renewal of licenses.

Barkentine and Cargo Burned.

SAVANNAH, Ga., Aug. 2.—The British barkentine Cypher, reported in these dispatches as having been saved from destruction by flames, Friday night, in this harbor, was completely destroyed by fire Monday with her cargo of rosin and lumber, valued at \$5,500. The vessel was worth \$7,000. Some of the crew did not want to go to sea, and it is thought they set the vessel on fire to keep from sailing. There have been no arrests.

BIG MEETING

Of Miners Held in the Turtle Creek District.

The Strikers at Camp Determination Started on Their March

To Sandy Creek—President Patrick Dolan, Their Leader, Arrested at the Instance of Thos. P. Deamitt—The Incident Causes an Ugly Feeling.

PITTSBURGH, Pa., Aug. 2.—All roads led to Turtle Creek Sunday. Marching miners from all over the district were converging toward Camp Determination, and if all those reported as being on the march reach the scene before morning there will be at least 6,000 diggers present at the big meeting which is scheduled for 11 o'clock at McCrea's schoolhouse. The miners expect 8,000 to be present.

The borough of Turtle Creek experienced the liveliest day in its history with its large transient population of miners and curious visitors, but the day passed without trouble of any kind. Burgess Teats, of the borough, visited the miners' camp Sunday and stated he had no reason to order the crowd to disband, and as long as peace prevails he will not disturb them.

There was a complete shift in the make-up of the campers Sunday. The men from the Wheeling division of the B. & O., who have been on guard ever since the big movement against the Deamitt men was inaugurated, left during Sunday night for their homes at Pileville.

At 1:15 Monday morning the strikers at Camp Determination were aroused and 500 men ordered to march to Sandy Creek and 500 to Plum Creek. The marchers began with President Patrick Dolan heading the force, going to Sandy Creek. After proceeding a short distance, Dolan was served with a writ charging him with riot and unlawful assembly at the instance of Thomas P. Deamitt. For a time great excitement prevailed among the marchers, but Dolan quieted them by saying that he would be all right and soon join them. He was then taken back to the justices' offices and the marchers proceeded. Secretary Warner, Organizer Cameron Miller and other leaders are included in the writ.

A citizen of Turtle Creek stands ready to furnish bail for Dolan, and it is presumed he will be released.

The incident has caused a very ugly feeling among the strikers, and if the other leaders included in the order of arrest should be stopped in their work, decidedly vigorous action will likely be taken at the big meeting Monday morning.

The detachment sent to Plum Creek mines Monday found that Deamitt had stolen another march on them. It was the intention to hold a meeting at the Bethlehem school house and to invite the Plum Creek miners there to attend. When the marchers reached the place they found that a fence had been erected around the school property, and notices posted that no trespassing would be allowed.

This move engendered considerable ill feeling, as the school house grounds were the only public place in the vicinity of the mine where meetings could be held. The leaders of the marchers said they would not disobey the notices and the men marched back to McCrea's school house.

Destructive Floods in Austria.

VIENNA, Aug. 2.—There is no abatement of the floods in Western and Upper Austria. The Danube continues to rise and the danger is very great. At Linz, 100 miles west of Vienna, and at Mauthausen, enormous damage has been done to property. A heavy stone bridge at Linz has been partly demolished. A cloudburst is reported from Budweis, Bohemia, on the Moldau, and there has been extensive flooding in the outskirts of Ischl, a fashionable watering place on the Traun. The visit of the Emperor Francis Joseph to Baden and the proposed journey of King Alexander, of Servia, from Belgrade to Vienna have been stopped by the floods.

A LAKE

Of Almost Pure Petroleum Discovered in Alaska—Also Rich Coal and Asphalt Deposits.

SAN FRANCISCO, Aug. 2.—While the whole world is excited over the gold discoveries in the north, sight has been lost of another discovery that promises to be of great value in the development of this section. Some months ago a lake of almost pure petroleum was discovered and samples were sent to Seattle for analysis. The report on these has been made public and the find is reported to be of most marvelous richness. A company has been formed in Seattle to handle the product and travelers from there say the company intends to put it on the Alaskan market at once. The lake is of unknown depth, several miles wide and five to six miles in length, and the quality of the petroleum is said to be of the finest. The lake is only two miles from the ocean. The hills surrounding are said to be rich in coal and asphalt. It is the expectation of the owners of the lake to take its products into the mining camps of northern Alaska whenever the water ways will permit.

POISONED FOOD.

Four Colored People of Louisville at the Point of Death—A Neighbor Suspected.

LOUISVILLE, Ky., Aug. 2.—Hardin Johnson, his wife and daughter, and Dan Hazelwood, all colored, were poisoned Sunday, and are lying at their home in this city at the point of death. Late Sunday night hope was entertained for Hazelwood's recovery, but Dr. Howard, the attending physician, said he did not believe the members of the Johnson family could recover.

Johnson invited Hazelwood to take dinner with him. The former's wife prepared and cooked the vegetables, which had been bought the night before. Shortly after dinner all were taken suddenly ill. They became unconscious and appeared to be dead. Dr. Howard was summoned and administered emetics. None of the patients revived until Sunday night. Dr. Howard says the poisoning was due to laudanum placed in the food.

It is alleged that Johnson has a neighbor who has been jealous of him for several months, and has attempted to do him injury on previous occasions. The police are investigating the matter.

WELL-KNOWN POLITICIAN

Murdered His Clothing Saturated With Oil and His Home Set on Fire—His Wife Suspected.

REDWOOD FALLS, Minn., Aug. 2.—John O'Connell, a well-known politician, has been murdered at his farm. Seven gashes in his scalp were made by some blunt iron instrument. After the blows had been inflicted O'Connell's clothes were saturated with kerosene and his home set on fire. Statements of three of the oldest of nine children made to the authorities are to the effect that Mrs. O'Connell, wife of the murdered man, was the sole author of the horrible tragedy.

His wife's antipathy to drink was strong and his abuse of her and their children while under its influence appears to have driven her temporarily insane.

Little Village Near Havana Attacked By Insurgents.

They Were Well Armed and Met With But Little Resistance.

Forty-Nine Spaniards Were Killed and 120 Wounded—Two Cubans Killed and 40 Wounded—Insurgents Sacked the Town, Taking All Valuables.

TAMPA, Fla., Aug. 2.—The story telegraphed from Havana last week about an attack by insurgents on the suburbs of that city is confirmed by passengers who left Havana on the Plant line steamer Mascott Saturday, and arriving here Sunday night. Among the number was Senor Calbajer, a wealthy Spaniard and his wife and daughter, who are now to be reckoned among the refugees who have fled from Havana. The attack referred to was made on the little village of Marnanao about ten miles southeast of the city and the terminus of the antiquated and dilapidated Marnanao railroad. Senor Calbajer was an eye witness of the raid on Marnanao. He says that the attack was led by Baldo-mero Costa Juan Delgado and Hernandez. The insurgent chiefs left 500 of their troops outside of the town and carried in 300 to the attack. They were well armed with dynamite rapid-fire guns and met with but slight resistance. The engagement was short and desperate. Forty-nine Spaniards were killed and 120 wounded; two Cubans were killed and 40 wounded. The inhabitants of the town fled for their lives, leaving the insurgents in complete possession. They sacked the place and secured \$40,000 in gold besides a large quantity of supplies that they could not carry away.

Other passengers tell about the same story of the affair. Senor Calbajer says the wildest terror reigned in Havana and that the well to do inhabitants are leaving as fast as local laws will permit.
